CAReer – The Top Talent Program is the ideal start for a long-term career with Daimler. Being an entry-level professional training program, CAReer is targeted at university graduates or early professionals who want to get to know the company inside out and take on management and project responsibility early on. With this particular CAReer position, you will launch your future career in the department “Integral Projectdevelopment”.

Production Planning/Factory Planning has worldwide responsibility for all greenfield and brownfield facility projects for Operation Cars. The core function of factory planning is the PP-wide interconnection and integration of all process planners, the planning and realization of media supply and conveyor techniques including mechanical and electrical process techniques as well as civil, architectural and infrastructural structures.

Your responsibilities include

- Coordinating and realizing technically complex and integrative layout planning for all production plants of Mercedes-Benz Cars.
- Establishing and approving an integrated building layout based on the specifications from production planning.
- Establishing committed target planning for all types of building and facilities.
- Structuring of the facility project in terms of budget, schedule, interconnections and staffing based on reference projects.

We expect from you

- An excellent university degree in Business & economics, International management, Vehicle technology, Electrical engineering, Mechanical engineering, Mechatronics, Business & engineering, Industrial engineering, Energy technology or equivalent (ideally as a Master degree)
- First professional work experience (18 months are obligatory with a Bachelor’s degree)
- Several months of solid experience abroad
- Excellent English language skills along with very good knowledge of German and basic of Portuguese
- You convince us with your personality and enjoy the management responsibility
