

## Advertisement W 94/2019

The newly installed Chair of "Applied Macroeconomics" at the Department of Economics of the University of Rostock invites applications for, subject to fund allocation, two positions starting on April 1<sup>st</sup>, 2020 for an initial duration of three years (extension is possible), as

### **Researcher (m/f/d)**

(pay scheme TV-L E13, fixed-term)

We encourage applicants with and without a doctoral degree to apply. The positions are to be filled in full-time or part-time.

### We offer:

- The successful applicant will pursue his/her academic career with a focus on research and teaching in a multi-faceted, diverse and challenging environment with young and ambitious colleagues.
- You will work on high-quality research with a focus on macroeconomics, both independently and as part of a group. You will present your results on international workshops and conferences and publish in international economic journals. You will be member of an open-minded and cooperative research group that combines quantitative macroeconomic models with statistical and econometric methods (microeconometric and time series analyses) and that values contributing with our research to academic and policy debates.
- You will teach lectures, tutorials and seminars in macroeconomics (teaching load is 4 SWS as a full-time employee). Your responsibilities will include student examinations.
- The position serves for developing your academic career and offers the possibility to obtain a doctoral degree or Habilitation. We support your career by offering the possibility to take part in courses and research stays at national and international institutions.
- We offer employment in accordance with the provisions of the public sector's wage agreement (TV-L) at a university that is rich in tradition but at the same time innovative, modern, family-friendly and situated in an attractive city at the Baltic Sea.

### Requirements:

- university degree (Master or equivalent) in economics or related field with very good results, focus ideally on macroeconomics and/or empirical methods
- interest and if possible experience in theoretical and empirical macroeconomic analyses and programming skills (e.g., in Matlab, Stata, R, Julia or equivalent)
- ability to express complex contents clear and concisely in word and script
- high level of written and spoken German and English
- willingness to work seriously and enthusiastically on your own academic qualification

### Further information

The limitation of the term of employment complies with § 2 (1) WissZeitVG.

Equal opportunity is an essential part of our human resources policy. In case of equal qualification, applications from severely disabled people or equivalent are explicitly welcome. The University of Rostock seeks to increase the proportion of women in research and teaching and particularly encourages female applicants to apply for this position. We welcome applications from people of other nationalities or with a migration background.

On Request, the Personnel Council can be brought in. Please submit a formless application to your application documents.

We are looking forward to your e-mail application. Please send your informative documents (CV, thesis paper, possibly letter(s) of recommendation) until **January 6, 2020** with the e-mail subject „**Advertisement W 94/2019**“ to [bewerbungen.personal@uni-rostock.de](mailto:bewerbungen.personal@uni-rostock.de). Early applications are encouraged. Only applications, which are send to this e-mail-address, in time and as one single pdf-document, will be included in the selection process. The protection of your personal data is very important to us. Therefore, your data collected as part of the application process are collected, processed and used in accordance with the relevant data protection rules. Please note that your e-mail dispatch is uncoded.

Please note that the Federal State of Mecklenburg-Vorpommern does not reimburse application and travel costs.
