Instructions for the directory of modules

The university portal for studies and exams
Contents

1. Preface 2
2. Search for modules 3
3. Found modules/ module version 4
4. Module description 5
1. Preface

This instruction is meant helping you to find the courses from the list of courses in English, which you can find on the website of the University of Rostock (International Affairs → Incoming → Gueststudies / ERASMUS+).

“Click” on the following link to get to the portal page for students the “Studien- und Prüfungsportal”. → https://pruefung.uni-rostock.de

A module consists of different units with the same learning objective. You will get the credit points if you complete the whole module successfully.

To search for a particular module, you need to go to the module directory “Modulverzeichnis”. For this, you do not need any registration information and you do not need to register. With a “click” on “Modulverzeichnis” you will get to the module directory.

Adress: https://pruefung.uni-rostock.de
2. Search for modules

Here you have the option to filter your search according various criteria.

E.g. the module number and the credit points you’ll need for the **learning agreement** and the **study plan** as well.

![Module search interface](image)

(1) **Modulnummer** – module code
    every module has a specific code number

(2) **Modulname** – module name
    name of the module

(3) **Leistungspunkte** - credit points
    amount of credit points you will get after a successful module closure

(4) **Modulturnus** – module interval
    the semester in which the module will start (e.g. in summer or winter semester)

(5) **Moduldauer** – module duration
    information about the amount of semesters the module will last

(6) **Lehrsprache** - language of instruction (e.g. German/English)
    choose English to search for given courses in English

(7) **Einem Studiengang zugeordnet** – degree programme
    choice of degree programmes
3. Found modules/ module versions

Once you have entered your search criteria, you can click on "Suche starten" to display all modules with the corresponding search criteria.

Now you can sort the search results by module code, module name, processing status or module version.

1. Modulnummer – module code
   
   With this module code you can search for the module

2. Modulname – module name

   
   Here you can see the status of the module
   
   Ausgelaufen – inactive (this module is inactive/ only for students who still have to do the examination)
   Auslaufend – to be discontinued (this module is going to end)
   Veröffentlicht – active
   
   It is recommended to choose the active status.

4. Modulversion - version of the module
   
   It is recommended to choose the latest version of a module (in this example winter 2018/19).

With a "click" on the module name you will get to the module description of the corresponding module.
4. Module description

In addition to the search criteria already entered in the "Suche nach Modulen", there are other important categories in the module description, such as:
(1) Ansprechpartnerinnen/ Ansprechpartner
Contact partners - Overview of contact partners, if you have questions about the module

(2) Zulassungsbeschränkung
Admissions restrictions

(3) Zwingende Teilnahmeverpflichtung
Necessary prerequisite - Necessary prerequisite to participate in the module
Notice: Please get in touch with the responsible contact partner, as it is not necessary for every guest student to fulfill the necessary prerequisite.

(4) Dauer des Moduls
Duration of module - e.g. 1 semester or 2 semesters

(5) Beginn/ Angebotsturnus
Regular circle - e.g. the module starts every summer semester or winter semester

(6) Lehrveranstaltungen
Courses - Overview of current and planned courses for the module
(with a “click” on the course name you will get to the “Onlineportal für Lehre, Studium und Forschung” (LSF), where you can find more information about the course)

A module consists of different units with the same learning objective. You will get the credit points if you complete the whole module successfully.

For a successful module closure it is important that you follow the courses.

Notice: The subdivision of hours per semester weeks is important. The amount of time of a module often defines how much credit points it has.

(7) Prüfungsvorleistung
Prerequisite of exam (e.g. compulsory/mandatory attendance, academic assignment etc.)
You have to fulfil the prerequisite to register for the examination.

(8) Prüfungsleistungen/ Studienleistungen/ Voraussetzungen für einen erfolgreichen Modulabschluss
Examinations and methods of examinations, academic performance and prerequisite for a successful module closure (e.g. exam, thesis, presentation etc.)

(9) Hinweise
