## Mintsa Summer Campus 4 Refugees 2022

**Rostock International House**

# Welcome

Dear prospective students,

We like to welcome you to the fourth MINTSA, the MINT Summer Academy. We originally created this summer school especially for refugee and international applicants in the STEM subjects (mathematics - engineering - natural sciences - technical subjects). This year, we have expanded the MINTSA to other subject groups and we are also offering the program mainly in English, in order to be able to meet the recent changes. The MINTSA serves as an orientation for all those who will be studying at the University of Rostock or at other German universities starting this winter semester.

Our Summer Academy will provide you with a helpful transition from language courses and preparatory phases to typical university courses, as you will experience them later at the university in the subject of your choice. You will hear „real“ lectures from professors in subjects ranging from computer science to electrical engineering to wind energy to materials engineering. Some „show lectures“ will have additional language preparation and follow-up. You will acquire strategies to overcome language hurdles.

Distinguished professors from our university will accompany you during MINTSA. We are very grateful for this! The MINTSA is financed by the budget of the Prorector for Studies and Teaching and the DAAD program „Integra“. We would like to take this opportunity to express our sincere thanks for their support.

The organizing team of the RIH, led by Mrs. Maria Merkel, was supported by the scientific direction of Prof. Dr. Ludmila Lutz-Auras, as well as by the language instruction supervision of Hendrikje Paarmann.

We wish you good learning results and of course a lot of fun at MINTSA 2022!

## Buddy Programme

The Buddy programme is intended to make it easier for prospective students with refugee status to take part in everyday life at the University of Rostock. A Rostock student will therefore provide support as a Welcome Buddy to enable refugee students to find their way round in the university jungle.

Whether it is getting a student card, asking the right person to put together a timetable or finding your way around the campus and the city - the support of a Welcome Buddy can make a big difference.

For further information and registration please visit:

and follow us on Instagram or on Facebook:
