

Rostock, February 28th, 2022

Information regarding the individual standard period of study for the period of time summer semester 2020 to winter semester 2021/2022

In pursuance of § 114, Paragraph 4, Sentence 1 of the State Higher Education Act, the following applies to students who were enrolled in a degree program at a state higher education institution in the summer semester 2020 and who have not been granted leave of absence: the individual standard period of study deviates from the standard period of study and has been extended by one semester.

Pursuant to § 114, Paragraph 4, Sentence 2 of the State Higher Education Act and in conjunction with §§ 1 to 3 of the Enactment on the Standard Period of Study in the version of February 21st, 2022, this regulation also applies to the winter semester of 2020/2021, the summer semester 2021 and the winter semester 2021/2022 due to the continuation of the pandemic situation.

By submitting this letter and being aware of the penal significance of false statements, the former student at the University of Rostock hereby declares that he/she was enrolled in a successfully completed course of study during the above-mentioned semesters. His/her individual standard period of study was thus extended by the number of semesters in which he/she was enrolled and not on leave of absence during this period of time.

Prof. Dr.-Eng. Patrick Kaeding
