University of Rostock

Coordinated Programmes of the German Research Foundation (DFG) 2018

Collaborative Research Centres SFB	SFB 1270: Electrically Active Implants - ELAINE (IEF; MNF, MSF, UMR, external partners)
Research Training Groups GRK	GRK 1887: Power of Interpretation (THF; PHF, WSF, external partners) GRK 2000: Baltic TRANSCOAST - The German Baltic Sea Coast as Terrestrial-Marine Interface of Water and Matter Fluxes (AUF; MNF, MSF, external partners) Integrated Research Training Group of the Collaborative Research Centre SFB 1270 (IEF; MNF, MSF, UMR, external partners)
Research Units FOR	FOR 2440: Matter Under Planetary Interior Conditions (MNF; external partners)
Participation in Research Unit FOR	FOR 2337: Denitrification in Agricultural Soils - Integrated Control and Modelling at Various Scales - DASIM (AUF, external partners)
Priority Programme SPP (coordination at UR)	SPP 1158: Antarctic Research with Comparative Investigations in Arctic Ice Areas (MNF; INF, external partners)

New Third-Party Funded Projects 2018
 (funding over 750,000 Euros)

Federal Ministry of Education and Research - BMBF	RESPONSE: Partnership for Innovation in Implant Technology (UMR; external partners)
German Research Foundation - DFG	SPP 1839: Tailored Disorder - A Science- and Engineering-Based Approach to Materials Design for Advanced Photonic Applications (MNF, external partners)
Federal Ministry for Economic Affairs and Energy - BMWi	Power Electronics for Gearless Wind Turbine Systems with Higher Power Density, Efficiency and Robustness (IEF, external partners)
European Social Funds - ESF	iRhythmics: Programming Pacemaker Cells for in Vitro Drug Testing (UMR; IEF, external partners) ONKOTHER-H - Development Platform for Innovative Oncological Therapies using the Example of most Frequent Human Cancer – Skin Cancer (UMR; MNF, external partners) HOGEMA - Researching Novel Approaches to Provide Improved Tissue Replacement Materials Based on Hydrostatic High-Pressure Treatment (UMR; MSF, external partners) EnErGie - Enteral Nutrition in Malnutrition Related to Diseases of the Gastrointestinal Tract: From Basic Understanding to Innovative Treatment Concept (UMR; external partners)
BMBF / EU-Horizon 2020	ERA CoBioTech (call 1): European Research Area-Net Cofund on Biotechnologies (AUF, IEF, external partners)

University of Rostock

University of Rostock

The University of Rostock is not only the oldest university in the Baltic Sea region, but also the richest in tradition. Founded in 1419, it looks back on a longstanding history of teaching and research and celebrates its 600th anniversary.

The University of Rostock (www.uni-rostock.de) consists of nine traditional faculties and an additional Interdisciplinary Faculty (INF). The Interdisciplinary Faculty unites scientists and students of all disciplines in four major departments: 'Life, Light and Matter', 'Maritime Systems', 'Ageing of the Individuals and of Society', and 'Knowledge - Culture - Transformation'. These departments represent the key research areas that have developed throughout the long tradition of the University, and contribute to honing the University's profile through connecting its strengths by means of interdisciplinary and cross-curricular cooperation.

Offering more than 150 courses of study (37 bachelor degree courses, 60 master degree courses and 37 state examination courses including teaching degrees), the University of Rostock is one of Germany's Universities with the widest range of academic subjects. Beyond that, its Centre for Teacher Training and Educational Research conducts research on education and works on improving the quality of teacher training.

Mission Statement

Through its underlying principle of institutionalized inter-disciplinary cooperation, the University of Rostock uses the full potential of its wide range of human, natural and engineering disciplines in research and teaching and thus achieves innovative research results and gains international recognition. The University of Rostock focuses on promoting the next generation of scientist and thus encourages its students in their independence and individual responsibility during their studies, as well as it involves them in research activities from an early stage of their academic career. Moreover, the university fosters lifelong learning and therefore provides diverse open accesses to university education.

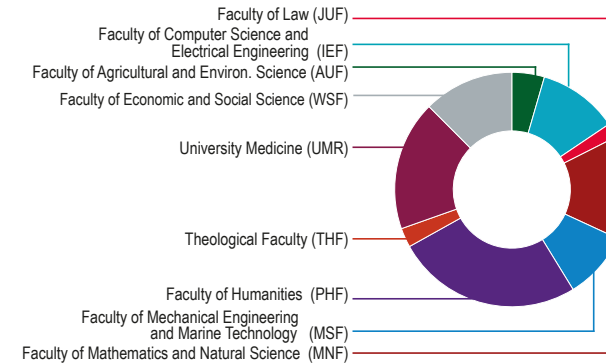

Within its international orientation, the University of Rostock recognizes itself as particularly integrated in the Baltic Sea region and is therefore committed to its obligation to the continued development of this surrounding region. The University of Rostock advocates for tolerance, equal opportunities and family friendliness as well as it acknowledges its leadership principles.

Research, teaching and studying at the University of Rostock should serve peaceful purposes, enhance coexistence of people, and uphold the principle of sustainability when using finite natural resources.
